Fluid intake log

One line for every drink, as it is drunk. Write the amount the way you measure it (cups, a marked glass, or the bottle size) and keep it the same all day. Start a new sheet each day.

The doctor's instructions	
Name and date	
What the doctor or nurse asked for (their words)	
How we measure (cup, marked glass, bottle)	
When to call the doctor or nurse (their words), and phone	

Time	Drink	Amount	Running total	Given by	Notes (refused, spilled, help needed)
